

Pipe bend supports

Overview

Made from fiberglass reinforced polyamide, the pipe bend supports are used to provide support and stabilisation for the underfloor heating pipes as they connect to the Warmup S3 Manifold.

They are also used for bends in service pipes that pass through floor and wall spaces such as with Warmup VLo Econna-12 and where pipes transition between floor levels.

Technical specifications

Product code	WHS-P-BEND	WHS-P-BEND12
Application; OD Ø	for 16 - 18 mm pipe [1/2"]	for 10 - 14 mm pipe [3/8"]
Bending radius	5 x Diameter	
Material	Fiberglass reinforced PA 66	
Colour	Black	
Pack	50 / bag; 500 / carton
