

Show Profile

The new hand-held mixers

Made in Germany:

The Collomix quality promise – this underlines once more the reliability appreciated by so many users and the brand value of our products.

Perfect ergonomics:

Do your work with a straight back – with the position of the handle moved further upwards, the operator can stand upright while working, while the ergonomically shaped handles provide for a firm and effortless grip.

Attractive design:

Futuristic, high quality design for high attention value and functionality; rugged due to its sturdy metal frame construction which provides protection against dirt and breakage.
