Mix all this with just one battery

Material	Recommended paddle	Mix quantity with one battery charge*
Fine plaster	WK 140 HF	6 bags of 20 kg = 120 kg
Screed	MK 140 HF	9 bags of 30 kg = 270 kg
Tile adhesive	KR 120 HF	4 bags of 25 kg = 100 kg
Egalisation filler	KR 140 HF	5 bags of 30 kg = 150 kg
Lightweight plaster	WK 140 HF	6 bags of 30 kg = 180 kg
Natural stone bedding mortar	WK 140 HF	8 bags of 25 kg = 200 kg
Leveling compounds	DLX 152 HF	11 bags of 25 kg = 275 kg

* Battery used: 18V, 5.2 Ah Li-Ion. Tested under real conditions on site. 1 sack each per mix. Guide values, may vary, e.g. due to material characteristics, temperature etc. Errors and omissions excepted.

CAS battery pack	18 V, Li-ion, 5.2 Ah
Battery charging time [min.]	approx. 100 (20 min. with optional speed charger)

Item no.	Product / Set / Accessories
25166	Xo 20 NC with WK 140 HF no battery no charger
25167	Xo 20 NC with WK 140 HF with 2x battery and charger

Accessories 20677 Li-Power battery pack 18 V / 5.2
20678 Charger ASC 30-36 V, 14.4 - 36 V
"AIR COOLED"

One battery, plenty of possibilities

The 18 V 5.2 Ah Li-ion battery reliably provides sufficient power even for demanding compounds and is 100% compatible with all other products in the CAS family.

2 speeds for even more materials

The Xo 20 NC is the first battery mixer from Collomix with two speeds. From liquid to creamy and even heavy and dry: mix even more different materials than ever with a cordless Collomixer.

HEXAFIX® quick-change coupling

The innovative, patented quick coupling makes it quick and easy to switch paddles – without any additional tools.

The paddle does the job

The WK 140 HF is the perfect versatile choice and always available for reliable, high-quality mixing results. But every material is different. Save time and potentially avoid troublesome complaints by using the right paddle for your materials.

Using the right mixer saves money. Find what you need in our unique Mix Atlas.

Ultra-M technology from METABO

- » Intelligent battery management for durable battery packs with a 3-year warranty
- » Patented "AIR COOLED" charging technology – for shorter charging times
- » Permanent electronic single cell protection (ESCP) when charging, for a particularly long service life
- » Processor-controlled charge and discharge management
- » Optical capacity indicator for permanent checking of the capacity status
- » No memory effect
- » Long shelf life with next to no self-discharge
