Technical data:

Product code	EAN	Material	Width	Length	Package
ALB-PJ-12-25	4751023401546	PVC	12,5 mm	2,5 m	50 pcs.
ALB-PJ-12-30	4751023401553	PVC	12,5 mm	3,0 m	50 pcs.

Installation tips:

- For a firm connection, the base has to be dry, even, free of adhered pollution, dust and grease;
- The shortened profile must be carefully laid on the edge of the plasterboard board;
- Carefully set to the plasterboard in a manner that the profile sits firmly on the board
- To shorten the profile use scissors designed for work with plastic profiles;
- At low temperatures and strong winds, there must be counted with a lower starting gairiness and a longer time for the reaction of the adhesive.

Storage:

A horizontal storage position is recommended. The profiles need to be stored in a dry place the temperature range of -5°C to +40°C. Maximum recommended storage time is 24 months.
