

With Collomix at the pool position

Mixing tool MM

For small volumes of light and powdery materials

- The MM mixing tool is the optimum solution for the homogenization of small volumes (up to 15 kg) of light, powdery materials. The special round steel shape provides a notably smooth mixing action making it ideal for power drills. With a guide ring for extra tub protection. Mixing action: ▲
- The optimal mixing tool for small volumes of tile adhesives, ready-mixed mortars and pointing mortars, etc.

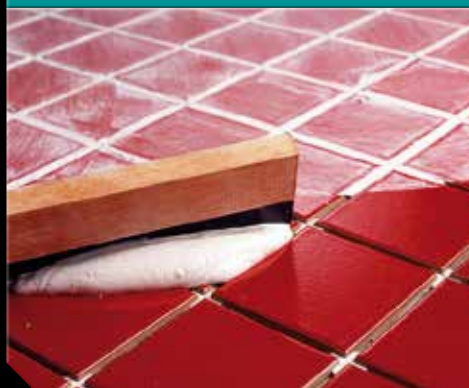

Technical Data:

Article	Art. No.	Bar-Code 4011024...	Paddle Ø (mm)	Length (mm)	min. drill chuck (mm)	Connection	Mixing load (kg)	rec. r.p.m. (min ⁻¹)	Drive (watts)
